

S.I.T.Search uncovers content across the breadth of your library's collections including e-journals, e-books and various citation information.

1. How to Search

TOP Page <https://sit.summon.serialssolutions.com/en>

Just entering your search terms in the search box and clicking on the Search icon.

Using a drop-down in the search box allows to 'pre-filter' your search on records that have the same characteristics.

Searching automatically over multiple fields. For example, if you enter the either one or some title of the journal article, the subject, the author, the publisher, the title of the journal, the title of the book, the volume, the issue, ISBN, ISSN and DOI, they can get the search results related to the above-mentioned conditions.

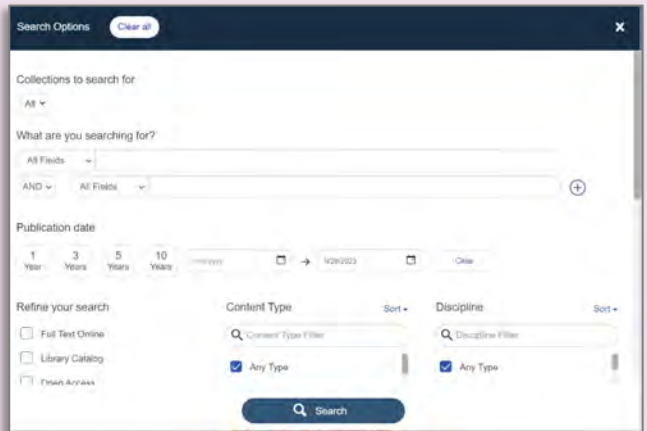

As you enter your search terms into the search box, the Summon autocomplete feature provides some suggestions.

Using Advanced Search from "Options" icon to retrieve more focused results.

- Keywords
- Author
- Title
- Publication Title
- ISBN
- ISSN
- Issue
- Volume
- Publication date
- Content type
- Discipline
- Language
- Library Location
- Limit to { items in the library catalog, items with Full text online etc....}

Advanced Search page

Searchable contents

You can search all at once from the one search box!

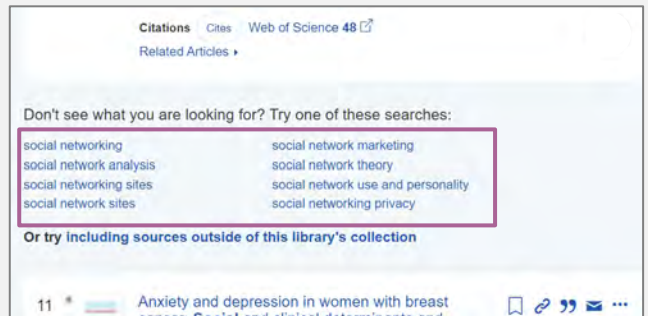

Database Recommendations

allows you to discover library resources which your institution subscribes in the context of your searching.

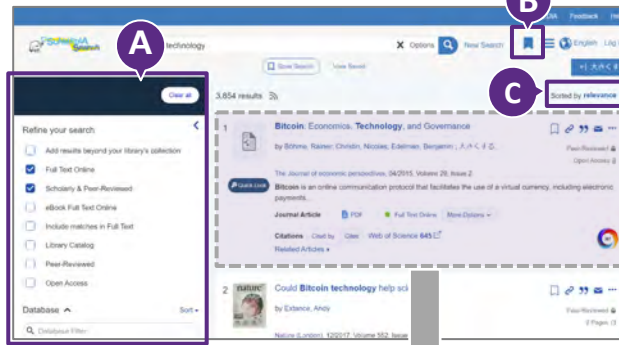

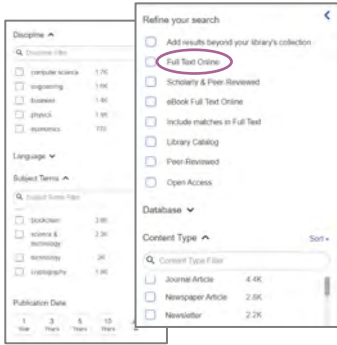

Related Topics

suggests other, similar searches that have often been made along with yours. Clicking on any item will start a new search.

2. Look at the Search Results

▼ Search results page

B Saved Items

A saved item folder will be available for the duration of your search session. You can view, copy/paste, email, print or export your list to bibliographic management software.

Point ! Closing the browser, the items saved in the folder are removed. If you want to review the information after that, please save it in some other ways, such as using a reference management tool.

A Narrow search results -facet-

You can narrow search results by content type, publication date, discipline, etc. Search results are updated as you include or exclude each facet value.

Point ! Select "Full Text Online" if you are looking for a ready-to-read contents on the Web!

C Sorting search results

You can sort search results based on Relevance, Date (Newest/Oldest), Author and Title.

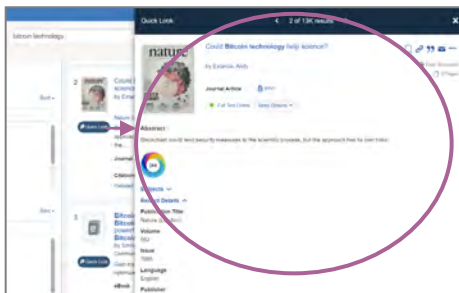

D Cover images / Material icons

Cover images or material icons are provided.

E Quick Look

displays additional metadata, without having to switch to another page

F The title of the material

Journal titles, book titles, journal article titles, etc.

G Bibliographic information

Volumes, issues, pages, authors, ISSN/ISBN, etc.

Point ! Clicking the journal title, you can search only contents which published on the journal.

H Content type / Location etc.

The "Full Text Online", "PDF" and "More Options" icons are displayed when the full text is available. The "Citation Online" icon is displayed when only the citation or bibliography is available. If the content is from the library holdings, you can check its location via the link.

I Citation trails / Web of Science

Citation trails allow you to explore a topic and collect material by following a chain of articles that cite each other. Web of Science displays citation counts on Summon.

J bx Recommender

provides you with usage-based scholarly article recommendations.

K Save items

- save citations in a temporary folder
- copy permanent link URL
- output the selected citation format
- send an e-mail with the item information
- export to a variety of citation management tools

L Peer-Reviewed / Open Access

If the content is Peer-Reviewed or Open Access, labels are displayed.

M Altmetric

Altmetric Badges display information about an article's scholarly impact as expressed through online, social media and news mentions.
