

3.2 Various data

1) Result summary of Library Satisfaction Survey

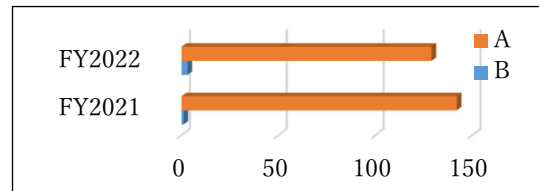

2) Questionnaire result of library tour for SIT high school and junior high school students

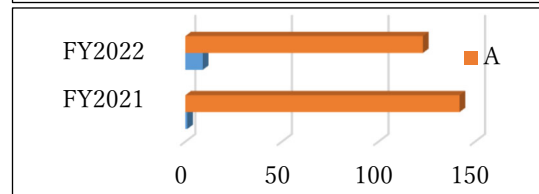

We are pleased to report the results of the questionnaire survey regarding the University Library Information Session held on February 15 and 16 for the attached junior and senior high school students. Respondents: 132 high school sophomores (143 in the previous year)

*Partial summary

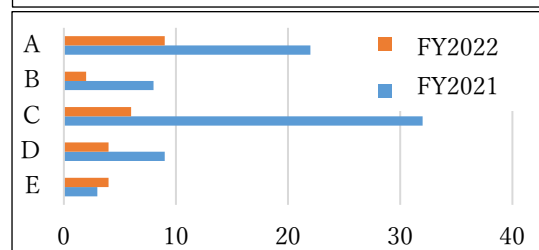

- (1) Did you understand how to enter the library?
 A YES 129 (142)
 B Some points were difficult to understand 3 (1)

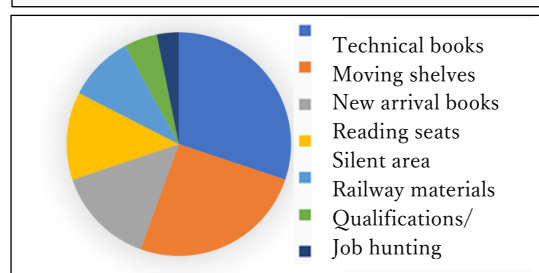

- (2) Did you understand how to borrow books?
 A YES 128 (142)
 B Some points were difficult to understand 4 (1)

- (3) Are there any points you would like to see improved?
 A How to enter the university 22 (9)
 B How to enter the library 8 (2)
 C Borrowing a "Lending Card" at the high school 32 (6)
 D Time of use 9 (4)
 E Others 3 (4)

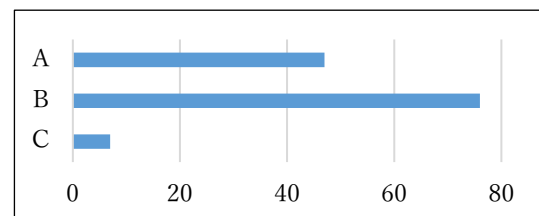

- (4) Were there any impressive places?
 Technical books : 19 Moving shelves : 16
 New arrival books : 9 Reading seats : 8
 Silent area : 6 Railway materials : 3
 Qualifications/ Job hunting : 2
 • I could concentrate on my homework because of the silent space.
 • I was interested in the moving shelves.
 • I was glad to see a large number of architecture-related books in the collection.

- 5) What was the best part (interesting or informative) of the explanation?
 • I found OPAC to be a very convenient and easy-to-understand system for finding books.
 • I thought I could find many books I wanted to borrow and many books I didn't know about by using OPAC.
 • I was interested in the many important cultural properties on display.
 • There were English and Japanese books in different places.

- 6) Would you like to actually use the university library from April?
 A YES 47
 B I would use if necessary 76
 C I may not use often 7

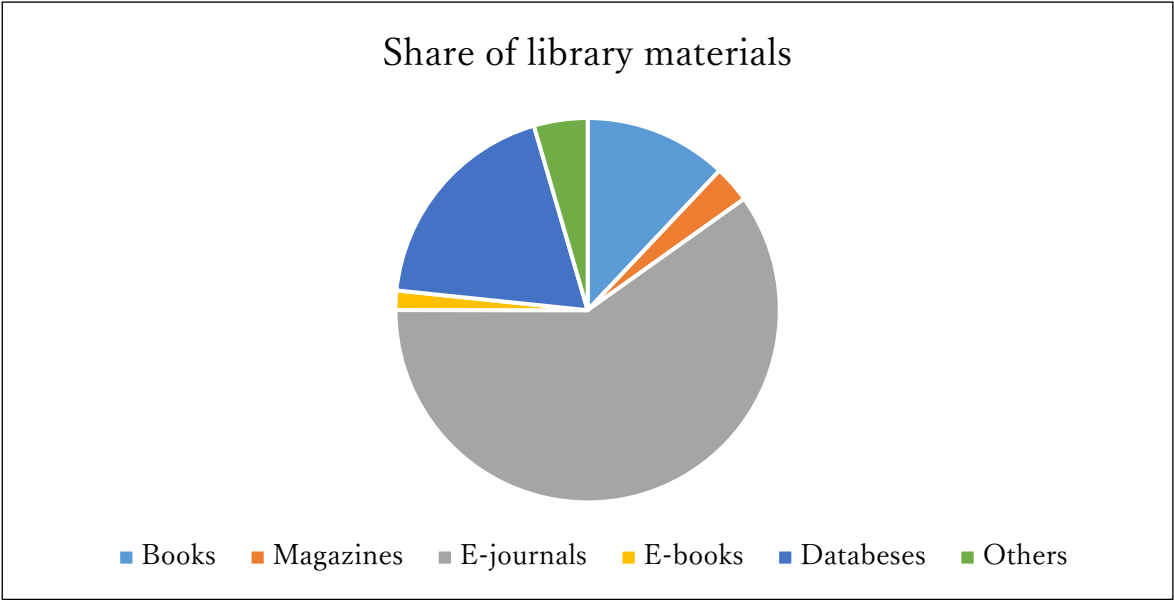

- The facilities are very clean and well-equipped, and I would like to use it as soon as possible.
- I could understand the university library very well, and it motivated me to use the library both in high school and as a university student.
- I would like to use the university library for reports and independent study.
- I was very interested in the university library because it has a lot more materials than the junior and senior high school libraries.

3) Breakdown of library material cost

unit : 1,000JPY

Books	Japanese	20,086	12.1%
	Foreign	7,997	
	Total	28,083	
Magazines	Japanese	6,321	3.1%
	Foreign	930	
	Total	7,251	
E-journals	Japanese	6,199	59.8%
	Foreign	133,248	
	Total	139,447	
E-books	Japanese	1,275	1.6%
	Foreign	2,547	
	Total	3,822	
Databases	Japanese	12,126	18.8%
	Foreign	31,785	
	Total	43,911	
Others	Total	10,507	4.5%
Grand total		233,021	

E-journals and databases represent 79% of the total. It will be over 80% with the addition of e-books to the above.

4) Actual utilization

4)-1 Number of visitors

We conducted a fact-finding survey considering e-material users as “online visitors” according to the expansion of e-material.

• Actual visitors

Campus	FY2019	FY2020	FY2021	FY2022
Toyosu	179,250	21,775	99,856	115,932
Omiya	155,760	8,076	68,531	102,695
Shibaura	11,720	1,451	4,760	3,718
Total	346,730	31,302	173,147	222,345

• Online visitors (Number of access for DB (database) + DL (download) number of theses)

	FY2019	FY2020	FY2021	FY2022
Total	387,366	346,051	431,172	485,409

• User numbers of alumni and alumnae

In order to prevent the spread of the COVID-19, the library had been closed to outside-university visitors, including graduates since 5th March, 2020. We re-started the services on 1st April, 2022.

Campus	FY2017	FY2018	FY2019	FY2022
Toyosu	1,314	1,218	1,242	762
Omiya	576	1,430	1,190	178
Shibaura	278	177	248	36
Total	2,168	2,825	2,680	976

卒業生の方へ（ご利用案内）

For Graduating Seniors

We issue “SIT Library Card” for graduates.

With this card, you can read and borrow books in SIT Library.

Application is free of charge.

- 本証は、他人に貸与または譲渡できません。
This card cannot be lent or transferred to others.
 - 本証を紛失したときには、図書館に届け出て下さい。
If you lose this card, please notify the library.
 - このカードを提示することにより、豊洲・大宮図書館の資料利用ができます。
By presenting this card, you can use materials in Toyosu, Omiya libraries.
 - 開館日・開館時間については、図書館ホームページをご参照ください。
Please refer to the library website for opening dates and hours.
[Library website: <http://lib.shibaura-it.ac.jp/>]
- Shibaura Institute of Technology Toyosu Library: 03-5859-7460
Omiya Library: 048-687-5103

To apply :

Please fill in all necessary information on the Library website.

<https://lib.shibaura-it.ac.jp/inquiries/cardform>

* Your personal information will be used only for the purpose of issuing your SIT Library Card.

When the card is ready, we will email you.

Please bring your ID card and receive it at the library counter.

* The card expiration date is one year until the end of March of the relevant year. If the expiration date has passed, please perform the renewal procedure.

Monthly transition

- Long-term loan of notebook PCs (half-term)

In the second half of FY2021, the library started long-term (half-term) loan of notebook PCs, which had been handled by the Academic Affairs Division, for online classes. 210 notebook PCs were loaned out a total of 410 times (including renewals). Student demand for notebook PCs was high, and all the PCs were on loan.

Shibaura Institute of Technology Library

[ACCESS](#) | [SHIBAURA](#)

Electronic Resources
General Information

Shibaura Institute of Technology Library > Long-Term Lending of Laptop PCs -for SIT students only-

Long-Term Lending of Laptop PCs

Before making inquiries, please refer to the "[Frequently Asked Questions](#)." section.

Until July 2021, laptop PCs were checked out at the Academic Affairs counter, but from August 2021, the administrative department has been changed to the Library, and the operation has been changed as follows.

1. Lending eligibility [for students only]

In principle, students who are having difficulty taking classes or writing assignments due to insufficient specifications or malfunction of their PCs.

2. Loan period

Semesterly (August and March: Renewal is possible) Short-term loans are not available.

3. How to apply for a new loaner PC

1. Access the laptop loan application site (URL below), check the "Application Details: New Application" box, enter the necessary information, accept the terms of use, and then press the "Send" button.
 - [Laptop PC loan request site \(on-campus and for students only\)](#)
2. You will receive an e-mail from the library confirming your renewal application.
Please follow the instructions in the e-mail and complete the borrowing procedure at the library.
(Note: The number of PCs is limited, so we may not be able to meet your request depending on the availability of PCs.
Please do not dispose of the box in which you checked out the book, as it will be used when you return the book.

4. If you wish to continue (extend) the loan of a laptop computer, please complete the following procedures by Friday, March 3, 2023.

1. Access the laptop loan application site (URL below), check the "Application Details: Application for renewal (extension)," enter the necessary information, accept the terms of use, and then click the "Send" button.
 - [Laptop PC loan request site \(on-campus and for students only\)](#)
2. The library will contact you by e-mail to inform you that your renewal application has been accepted. After that, the library will contact you by e-mail to inform you that the renewal procedure has been completed.
Once you have received an e-mail stating that your renewal has been completed, you will be able to continue using your laptop until August 31, 2023 (Thursday).
(Unlike Summer 2021, you do not need to come to the library and only need to apply for the renewal through the PC website.)
 - ◆ If you have not completed the renewal procedure for summer 2021 (i.e., you do not have a library barcode attached to your Laptop PC), you need to come to the library to apply for the barcode.
Please complete the renewal (extension) application as described in 1. above and wait for an email from the library.

5. Notes on returning your Laptop PC

1. Please return the laptop and its power cable to the library in the box you used when you checked it out.
2. Please be sure to initialize your laptop to protect your personal information and return it to the library in the same condition it left the library.
[How to initialize your laptop](#)

6. Contact information in case of PC trouble

If your PC malfunctions, we will replace it with a new one. (Repairs will not be provided.)
Please contact us using the contact information below.

- Prize for the best reader

Best reader of Toyosu campus: 571 books

Prize for the best reader 2022

We awarded and interviewed a fourth-year undergraduate student for "borrowing and reading more books during the school year"!

How to use the library

- The silent and audiovisual areas are quiet, so I often used them when I wanted to concentrate on studying alone.
- I used the reading seats and private rooms a lot to work on assignments until junior year, and from senior year, I used them to look for specialized books related to my research, write papers, and organize data.
- I also used My Library to request new purchases as well as to place holds and extend loans. When I felt stuck in my research, reading books gave me various ideas.
- I like to read novels, so I really enjoyed looking for books I wanted to read by referring to the handwritten POP of the books on display.
- One of my seniors in the laboratory recommended SciFinder-n to me, and I used it to search the literature. It was very useful because I could easily learn about past findings related to my research theme.
- I utilized the database to find articles I needed for my classes and research.

What books do you recommend?

- Downloading the audio from your smartphone is recommended to strengthen your listening comprehension.
- I borrowed SPI preparation books from the library and solved them during my commute to school.
- These are the books I referred to when I first learned programming. Although the name of "Suffering to Learn C" is a bit rough, it systematically summarizes the C language and is easy to understand. "Java Picture Book" is a book that helped me a lot when I was about to fall behind in Java. I recommend it because it is much easier to understand than other Java books.
- "Kitami-shiki Illustration IT Juku: Basic Information Technology Engineer" This is a book for the Basic Information Technology Engineer exam and is easy to understand with many illustrations. It is also useful as a reference book for classes such as "Fundamentals of Information Processing."

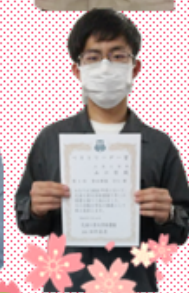

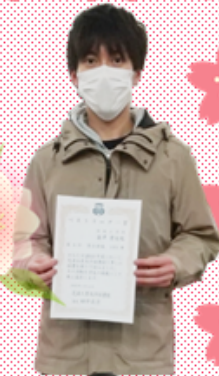

SGU

•TOEIC may be required for employment and laboratory assignments. I studied until I reached my target score. I borrowed TOEIC reference books from the library and studied. I was able to raise my TOEIC score from 430 to 750.

•For two months, I worked on my graduation project with an American student. It was a good experience for me to improve my language skills and to discover new things about each other's culture.

•In gPBL, I studied abroad in Vienna, Austria for two weeks. During the program, I had a chance to have discussions with university students from various backgrounds. It was a very valuable experience for me as I am not able to go abroad very often anymore due to the corona disaster.

Message to junior students

•The library is a great place to find materials for classes and research and to study for exams. We encourage you to use the library as much as possible. It is important to use both the Internet and the library's resources when you need to do research.

•I believe that students should have a voracious appetite for acquiring technology. Make use of the library for this purpose. As a science library, we place an emphasis on specialized books related to engineering.

•The library will help you improve your problem-solving skills. If you cannot find the article you want to read in the E-journals subscribed to by the library, you can order it for free from other universities.

•The university has many programs to help you improve your language skills. We encourage you to find one that will help you improve your skills and make active use of it! If you want to go on to graduate school, We recommend that you raise your TOEIC score as soon as possible.

•It is very important to enjoy your college life, but you must not forget about your studies. Please enjoy your life as a student by keeping a good balance between playing when you have fun and studying when you have to.

Best reader of Omiya campus: 517 books

 **Prize for the best reader 2022** 
We awarded and interviewed a fourth-year undergraduate student for "borrowing and reading more books during the school year"!

How to use the library

- We had study groups in the group study room and used the reading room when the private rooms were crowded. I used the library on a daily basis in addition to borrowing books. I used the university's PCs because it was difficult to run MATLAB and CAD on my own PC. During exam periods, the PCs in the library were a good place for me.
- Instead of deciding on just one book related to my research, I used the library to check out several books with similar content to see if there were different ways of looking at or interpreting them.
- It was convenient to be able to use OPAC to order books that I was not sure about purchasing from other campuses. The library has specialized books that are not available in public libraries, as well as materials that are not my area of expertise. There are also novels that are popular in my hometown and not available for borrowing.
- I looked at the library's website to manage information on articles I had researched. I found RefWorks (literature management software) and used it when I was writing my thesis.

What books do you recommend?

- I used SPI and "Shushoku Shikiho" for job hunting. I also used the newspaper database and the e-book from HP.
- There were many specialized books on brain research in the laboratory, but there were no developmental materials. So, I used library materials.
- In addition to MATLAB manuals and signal processing textbooks, I often used thicker manuals of programming languages.
- I borrowed books on how to write my thesis and used them as reference for creating presentation slides.
- I read the Blue Backs series to gain a broad knowledge of the universe. I also borrowed a lot of novels and DVDs.

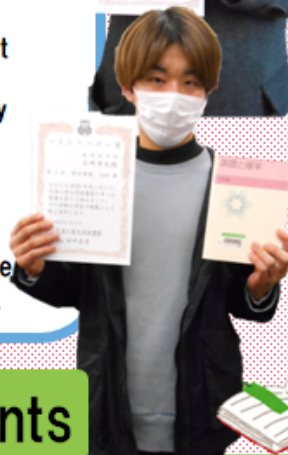

SGU

•I was considering graduate school at another university, so I borrowed books from the library to study for the TOEFL.

•I checked out the books I needed to study for TOEIC from the library first. I checked the inside of the book and bought it at a bookstore because I wanted to write down what I would actually use. I bought them at a bookstore. As an undergraduate student, I did not have a chance to study abroad. I am planning to study abroad in Poland next fall.

•In studying for the TOEIC, I read magazines such as CNN's English Express and other magazines. TOEIC books are mostly about business and daily life, but the magazine has other interesting content such as news.

Message to junior students

•It is difficult to determine which information on the Internet is correct and which can be used in a report. Books guarantee some quality of information through the process of publication, so if you are going to write a report, we recommend that you refer to books. The themes are the same for everyone, so if you pull information from the Internet, you will be covered. I tried to use books as well, partly because I didn't want to be covered by others. In specialized fields, foreign countries may have more detailed information, so it is also effective to read translations of foreign studies.

•If you have any difficulties in your studies or research, I recommend that you try reading books in a variety of fields. Libraries have many books in diverse fields filled with knowledge that cannot be acquired in general bookstores or on the Internet. You may discover something new by being exposed to a variety of books in the library.

•In any case, do what you like! Since you have been allowed to go to a private school, please make full use of 100% of the library materials and databases!

5) Facility use

- Facility use for Winter Intensive Course (Tea Ceremony Experience) of SIT junior and senior high school

On December 15, 2022, SIT junior and senior high school students experienced tea ceremony in the Japanese-style room of the library.

7) Activities record of the Library Research Committee for Railway Materials in FY2022/

29th Mar., 2023 Prof.Dr. Goro FUJITA / 2023.3.29

(1) Sorting-out and bibliographic registration of donated items

The remaining items that have not been sorted out are overseas periodicals and timetables of private railways and freight lines. Since it is difficult to preserve the originals, digitization is underway.

(2) Utilization of donated items

The number of loans to outside-university visitors is increasing; it was 13 out of 35 in FY2022.

Protective cases for the Odakyu Type 2200 bogie spiral bevel gears from Odakyu Electric Railway were procured, and its maintenance was completed in April 2022. The historical background is summarized by Chairperson, Prof. Ohga in "Odakyu Type 2200 and its Gears: A View of the Technical History of Train Drive Systems" in "Rail Fan" No. 793 (published in October 2022) by Association of the Japan Railway Club.

(3) Renovation of the Shibaura Railway Engineering Gallery

In November 2022, Railway Institute No. 403 (Seibu Railway No. 4) was preserved in the public open space for an event commemorating the 100th anniversary of the affiliated junior high school and high school. This was an opportunity to renovate the gallery. First, the train bookshelf was removed due to the danger of moving it, and replaced with a diorama of the train (Photo 1). The original location was made into an open space that can be used as a waiting area. In addition, exhibits related to steam locomotives were arranged. The photo exhibit is also related to steam locomotives. The exhibits that used to be placed on the floor are now displayed on a new stand (Photo 2).

In conjunction with the relocation of the diorama due to gallery renovation, and for the display of large railroad parts such as steam locomotive safety valves and Series 200 Shinkansen bonnets (Photo 3), special display bases were made for each item. In particular, the Tokyu driving seat is designed to allow visitors to sit down and is used as a seat for the diorama driving experience.

(4) Organization of committee meetings

Since most of our activities are informed through this report, we decided not to hold a committee meeting for the fiscal year 2021-2022. The committee will continue in FY2023 and beyond. The committee is scheduled to hold early in FY2023 due to significant changes in the structure, such as the replacement of administrative staff.

8) Relocation and Consolidation of Shibaura library to Toyosu library

It was decided to move from Shibaura campus to Toyosu campus in September 2022. Due to the relocation, Shibaura library was closed as of August 5th, and moved and integrated into Toyosu library.

From SIT website

Library poster

New Shibaura Campus Location Finalized

SIT has decided to relocate all of its current Shibaura Campus (Minato-ku) operations to its Toyosu Campus (Koto-ku) by mid-September 2022.

At the Shibaura Campus location, SIT will operate an income-producing enterprise (hereinafter referred to as "Shibaura Institute of Technology Building") by renting-out all of the existing Shibaura Building. The purpose of this project is to secure a stable source of income that will serve as the foundation of the university's operations by implementing a revenue-generating business that will serve as the basis for educational and research activities and facility planning while preserving the "land of the founding of the university".

An overview of the Shibaura Campus relocation process is as follows:
 Goal: Relocate the Shibaura Campus Faculty of Design Engineering, Corporate Office, and Alumni Association Office to the Toyosu Campus.
 Scheduled Completion: Mid-September 2022.
 Classes to begin at the Toyosu Campus: from the second semester.

The location of the SIT official corporate address is scheduled to be changed from Minato-ku, Tokyo to Koto-ku, Tokyo, subject to the approval of the Board of Trustees regarding the change of basic regulations (act of endowment) at the meeting to be held in July 2022.

Notice from the library

Closing of Shibaura Library

Due to the move to Toyosu Library, Shibaura Library will be closed on Friday, 5th August.

Please use the Toyosu Library after Wednesday, 17th August.

Inquiry:
lib-eturan@ow.shibaura-it.ac.jp

SIT Library Division of Information Network Systems

- Dates
 - ~ 8/31: Move-in preparations complete
 - 9/12-13: Move out from Shibaura library
 - 9/14-15: Move in to Toyosu library and arrange materials on shelves
- Material arrangement

In the second semester of FY2022, the transferred materials were placed in the shelves 90-101 and 111-115 in the new area, reproducing the layout of the Shibaura library for the convenience of students and graduate students who used to use Shibaura library.

• Survey for students

November 21, 2022

Results of the Questionnaire for the New Area of Toyosu Library

(Period: 10/27~11/18 Number of responses: 250)

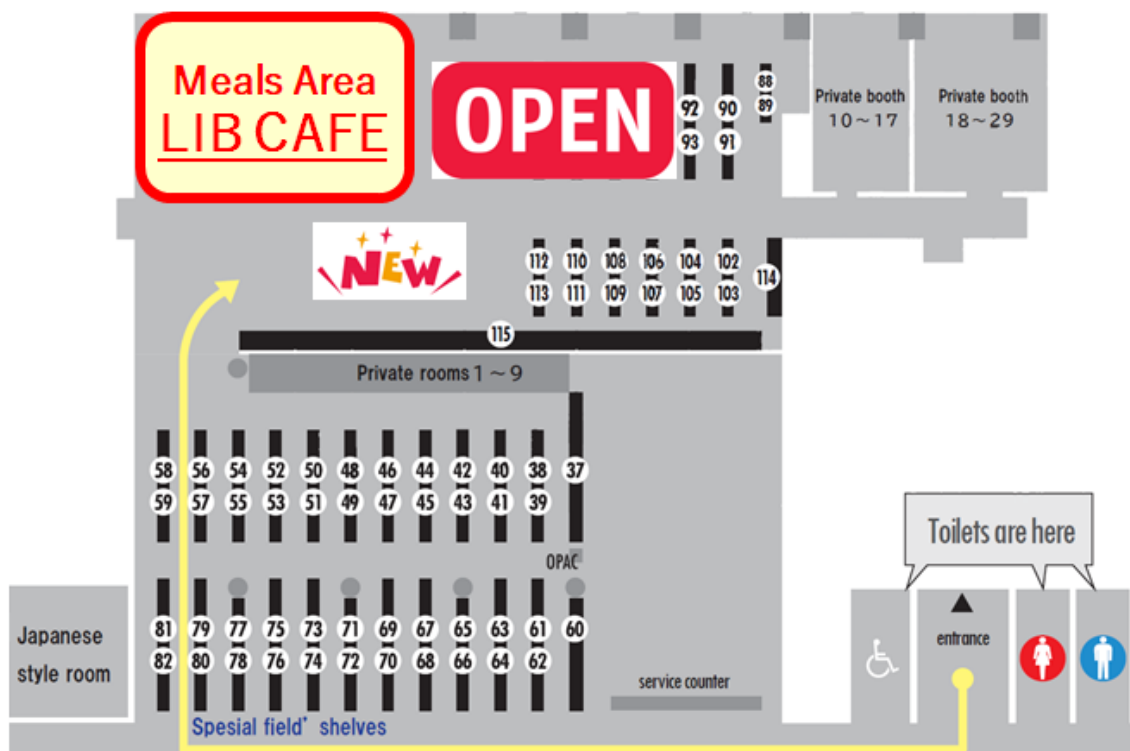

<p>【1】 We are planning to demarcate a part of the new area and make it into an area where light meals are available, which has been requested by many users in the past. If the new area were to be opened, would you use it?</p>	<p>【2】 The new area will have 20 private booths and other amenities to provide a calm environment for studying. When you use the library, how long do you want to stay?</p>	<p>【3】 We plan to use the new area to hold information sessions on databases and other resources that the library subscribes to. Would you like to participate?</p>
<p> ■ Frequent user ■ Occasionally ■ Not very often </p>	<p> ■ Long time (more than 60 min) ■ Short time (less than 60 min) ■ Do not stay long such as checking out and returning material </p>	<p> ■ I want to participate in a wide range of activities. ■ I will participate if it is consistent with my specialty. ■ I will not participate. </p>
<p>【4】 We are looking for an area name for the new area. Please write freely. / Reason for naming (if any)</p> <p>* omitted</p>		
<p>【5】 Other requests for the new area</p> <p>* omitted</p>		

• Reflection of survey results

- 1) New area has an area for eating and drinking on a trial basis, similar to the refreshment corner in Omiya library.
- 2) New area was named "Lib Cafe" based on students' requests.

The reason is that "Lib Cafe" is a word used in the library newsletter and is easy to understand and would be a good publicity tool for the library newsletter.

Toyosu Library Eating & Drinking Area is Open! Under trial from December 5th!

Light meals are allowed

Please refrain from soups, lunch boxes, or other smelly foods.
