SIT Libraries started a Home Delivery Service for book lending and photocopying from June to prevent infection of COVID-19, and we have received great feedback from a number of users.

Home Delivery Service is very useful for my assignment since I cannot visit the library.

Since I am a first-year student I got nervous at the beginning, but I learned how to use the library services through online library guidance and I've used the services many times.

I sent inquiries about how to lend a book several times via smartphone, and I have been introduced to the service by staff members of the library.

I hope this useful service will continue as long as possible since it seems difficult to visit libraries for the duration.

I've used Home Delivery Service many times since the service launched. Thank to this service, I can continue my research with many study materials during the COVID-19 circumstance. I really appreciate that.

I thank you constantly prompt action. I'm grateful that the loan period will be 3-weeks.

While I was worried about my study as well as my graduate research under the COVID-19 circumstance, I am satisfied with fulfillment support such as the Home Delivery Service. I appreciate it very much.

Home delivery service is very useful for my research report. Thank you very much.

I'm a heavy user of the Home Delivery Service. Thank you for your prompt action.

## 02. Library News

**With COVID-19**  
In Omiya Library, we set up the COVID-19 area in front of the entrance. There are various materials getting to the bottom of COVID-19, knowledge of the infection, measures against infection, its history and so on. It is a good chance to present materials and it might help to further your consideration of how to cope with the current climate. Please make good use of this.

**Expand the usage of e-journals "New Architectural Data"**  
<http://lib.shibaura-it.ac.jp/2020/10/21/13761>  
You have been able to use online New Architectural Data since 12th October, 2020. You can search for articles of "New Architecture" and "Feature Housing" magazines. Since we are going to release back issues sequentially, please make good use of these resources for your class and research activities.

**New section "Let's take a walk around TOYOSU"**  
We show the great charms of Toyosu, such as sightseeing spots, recommended foods, history and so on. We believe that Toyosu is very familiar with you, but you may find out something new about Toyosu.

**The pick-up! TOEIC section**  
At the TOEIC section on the left side of Shibaura library's entrance, popular materials like "Kikutan series" are displayed. Please use this for the examination, since there are various materials corresponding to the score.

## 01. Special features

### Let's learn from President Dr. Prof. Masato MURAKAMI!

~ Look out for a number of noteworthy materials! ~

President Murakami is active in many fields, and is known not only for his many years of achievement as a researcher and teacher, but also as a member of the Sanjo Society for Engineering Education's board of directors, and a counselor of The Mathematics Certification Institute of Japan. Since SIT was selected by the Ministry of Education, Culture, Sports, Science and Technology (MEXT) as one of Japan's Super Global Universities (SGU) in 2014, President Murakami and SIT have been committed to fostering the talents of engineers and scientists who can learn from the world and contribute to global sustainability. As a result of his own experience of studying abroad in California, USA during his high school years, he actively encourages globalization and international awareness on campus.

A special exhibition, "Let's learn from President Murakami" is currently being held in both the Toyosu and Omiya Libraries. SIT libraries offer a wide range of books written by the President that are frequently used, as well as a number of his articles, which are regularly cited all over the world.

**Comments from students who participated in the Global PBL**

I participated in the Global PBL program (Taiwan). In addition to my research, I was able to learn a lot through various exchanges, such as visiting sightseeing places with local students.

I have studied in five different countries, including Malaysia and the USA, and it is not a problem if you have a junior high school level of English. If you want to learn the language well, I recommend going to an English-speaking country on your own!

#### 4) Library satisfaction survey

- We have held a survey every October since 2009. In order to prevent COVID-19 infection, face-to-face distribution outside the library was not carried out in 2020, and online responses via Scomb and the HP were enhanced.
- We received 1,367 answers and comprehensive total score out of 5 was 4.07, same as the last year's score.
