Library Girl talk

Ms. Touko Sasaki, Senior, Faculty of Architecture, Blood type O, Aries
Ms. Miki Tsuboi, Freshman, Faculty of Material Science and Engineering,
Blood type AB, Leonian

Q: How do you usually use our library?

Ms. Tsuboi (hereinafter called T): I use the library for study and research. Since my house is near Omiya Campus, I visit the Library mainly on Saturday to use a private room.

Ms. Sasaki (hereinafter called S): I have been using the private room of Omiya library. Since I like high place, I wanted to use the seat on 3rd floor but someone was there always. At Toyosu Library, I read the magazine named "New Architecture (Shin-kenchiku)" frequently so that I usually use a carrel on compact stack side.

T: Since there are many books I want to read in the library, I want to check out a book as well as study at the library.

S: I prefer the book with photographs and drawing rather than novels. I sometimes read scientific journal, too.

Library is not only a place to meet books but also to meet people. When I was searching at the library after training camp of my seminar, someone spoke to me over the bookshelf. We are good friends since then.

T: That's wonderful. I never had a chance like that. There is less of a chance of

meeting students of my faculty, however I heard that they are using library.

Q: Do you know that our libraries organize various events and exhibit?

S: When the display is gorgeous and three dimensional, we are fascinated by this. To my regret, I never participated in the event but I know about the Selected book Tour at the library. I found out about "Monthly bookshelf (Tsuki mekuri no Hondana)" through notice board at the Student Affairs Office.

T: Since I am in a circle, I am a bit curious when other circle collaborate with library.

— **Library also has a Workshop with International Students who come from various countries.**

S: Please make continued efforts to holds such kind of events. When I past International Students on the campus, I cannot say something to them and I think I'm not the only one who has this kind of situation. I would appreciate it if the library creates this kind of opportunity.

T: I'd love to join that. I am grateful to the

library for giving us an opportunity for exchange.

Q: Please let us know any requests you may have.

T: If the library could have a space for eating/drinking, I would appreciate it! Food area is not necessary in the library, near the library would be fine!

S: It is hard to find a book in the library because books even in the same category of Architecture are in different places. However I have gotten familiar with this environment now.

T: Could you give me a message at the end?

S: I would recommend that you should visit the library when you have time. Deepen your knowledge through reading magazine and professional journal will be helpful when you need it. My friend also recommended me some books and we share information each other.

— **Our libraries are committed to create comfortable environment for students through holding various events and so on. Thank you very much for your time today.**

05 Global Activities in the Library

We held "The Library Day in Omiya feat. SISA"

With the cooperation of SISA (Shibaura International Students' Association) we held "The Library Day in Omiya feat. SISA" on Saturday, October 3.

In Omiya library, students made origami and beads accessories and learned how to use library. It is impressive that both international students and Japanese students interchanged enjoyably.

We hope the event would serve for the students to use the library more frequently.
