Here are all Global Exhibits which were held in Toyosu, Omiya and Shibaura libraries in 2017.

1 Taste of home for International students

We had interviews with international students about the taste of home cooking. Since I like Thai food very much, I will try Tom yam kum and Pad thai which were on display.

2 Foreign books of architecture

World-leading Japanese architectures and foreign architectures' books are on display. I'd like to have such a nice house in the future.

3 kawaii culture

We collect materials on Japanese Kawaii culture which attract attention from abroad. I was surprised to know that the expression of "Kawaii" is very unique to Japan.

4 Lib Cafe in Omiya ~Fascinating Dietetics~

Materials on coffee and tea were displayed. I became interested in coffee through this exhibition and purchased several kinds of coffee.

5 Space Lab ~Worldwide Space development~

We displayed materials about space and astronomy. Not only paper materials but also space foods were displayed. I wanted to try the space food!

6 Large reservoir of railway archives

There are many valuable historical documents about railway in the library. There is a book about foreign railway and it has a strong appeal to railway fan. Professor emeritus Dr. Juro Ohga tries to archive railway reservoir. He wrote a book from his study titled "Historical development of tram" and got Shima Hideo prize for superior railway writings.
