## Number of participants by department and grade on the day

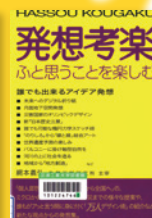

It was fun because there were many books from various fields. I'll attend this event again with my friends. There were books that I had never picked up there. It was interesting to just look at the covers.

There were many English books. I'd like to borrow them next time. I hadn't seen my friends in a long time, and it was fun to be able to join them.

Those new books are so inspiring! I didn't have this event in junior high and high school, so it was interesting.

I've tried using eBooks, but I prefer physical copies. It was also fun to talk with the library staff about books!

It was my first time participating in the event since it was restricted because of COVID-19. There were many new and interesting books. COVID-19 countermeasures were also in place.
